Advance bulletin

1971 CENSUS OF CANADA

Bulletin préliminaire

RECENSEMENT DU CANADA 1971

LABOUR FORCE ACTIVITY

This advance report gives the final figures for the 1971 Census showing labour force activity for Canada, the provinces, census metropolitan areas and census divisions for the week prior to enumeration.

The tables show the population 15 years and over, the number in the labour force, the number employed and the number unemployed, by sex. These data are shown for Canada and the provinces (Table 1), census metropolitan areas (Table 2), and census divisions (Table 3).

More detailed information concerning labour force activity will be available at later dates in the regular volume series of final reports of the 1971 Census. The purpose of this advance report is to make available summary totals at an earlier date.

All figures in this report have been subjected to the confidentiality procedure introduced in the 1971 Census to prevent the possibility of associating small figures with any identifiable individual. Briefly, it involves the random rounding of all last or unit digits. Since totals are independently rounded, they do not necessarily equal the sum of rounded figures in distributions. Also, there may be slight differences between comparable figures in this report and those in other census bulletins. This technique will be described in the reports of the 1971 Census volume series.

Each bulletin of the 1971 Census volume series will include measures of reliability in the form of estimates of the mean square error for sets of characteristics covered in that bulletin. The user interested in obtaining an indication of the reliability of these advance data should refer to the appropriate bulletin in the volume series.

8-5400-528

ACTIVITÉ

Ce bulletin préliminaire présente les résultats définitifs du recensement de 1971 en ce qui concerne l'activité sur le marché du travail pendant la semaine précédant le dénombrement, pour le Canada, les provinces, les régions métropolitaines de recensement et les divisions de recensement.

Les tableaux indiquent la population de 15 ans et plus, le nombre d'actifs, le nombre de personnes occupées et le nombre de chômeurs, selon le sexe. Ces données sont présentées pour le Canada et les provinces (tableau 1), pour les régions métropolitaines de recensement (tableau 2) et pour les divisions de recensement (tableau 3).

De plus amples détails sur l'activité paraîtront plus tard dans la série des volumes du recensement de 1971. L'objet de ce bulletin préliminaire est de communiquer les résultats sommaires plus tôt.

La confidentialité de toutes les données présentées ici est assurée par la méthode utilisée au recensement de 1971 pour interdire la possibilité d'associer des chiffres de faible importance à une personne en particulier. En un mot, cette méthode consiste à arrondir au hasard tous les derniers chiffres, c'est-à-dire les chiffres représentant les unités. Ainsi, tous les chiffres ayant été arrondis individuellement, leur somme ne donne pas nécessairement les totaux indiqués. Il peut également y avoir de légères différences entre les chiffres comparables de ce bulletin et ceux d'autres bulletins du recensement. Une description de cette technique figurera dans les bulletins de la série des volumes du recensement de 1971.

Chaque bulletin de la série des volumes du recensement de 1971 renfermera des mesures de fiabilité sous forme d'estimations de l'erreur quadratique moyenne relativement aux groupes de caractéristiques observées. L'utilisateur désireux de connaître le degré de fiabilité de ces données préliminaires devra consulter le bulletin approprié de la série des volumes.

DEFINITIONS (1)

Labour force activity: - Refers to the labour market activity of persons 15 years and over in the week prior to enumeration, i.e. working for pay or profit or in unpaid family work, looking for work, on temporary lay-off, or with a job but not at work.

Labour force: - In the 1971 Census, this refers to non-inmates 15 years and over, who, in the week prior to enumeration, worked for pay or profit, helped in unpaid family work, looked for work, were on temporary lay-off, or had jobs from which they were temporarily absent because of illness, vacation, strike, etc. Persons doing housework in their own home or volunteer work only, are excluded from the labour force. Also excluded are female farm workers who indicated that they helped without pay in a family farm or business for less than 20 hours.

Employed labour force: - Refers to all non-inmates 15 years and over who, during the week prior to enumeration, worked for pay or profit or in unpaid family work. It also includes persons who had a job from which they were temporarily absent because of illness, vacation, strike, etc. (provided they were not also looking for work). It should be noted that there are indications that the employed labour force counts for Quebec may be somewhat underestimated due to response problems.

Unemployed labour force: - The unemployed consists of all non-inmates 15 years and over who, during the week prior to enumeration, were not working but were looking for work, were on temporary lay-off, or would have been looking for work except that they were temporarily ill or believed no suitable work was available in the community.

Unemployed without experience: - Refers to those persons in the unemployed labour force who last worked prior to January 1, 1970 or who never worked.

Not in the labour force: - Refers to all persons 15 years and over not classified as members of the labour force. Most persons in this category are students, housewives, retired workers, seasonal workers in an "off" season who are not looking for work, and persons who cannot work because of long-term physical or mental illness or disability, including inmates of institutions.

Unemployment rate: - The percentage the unemployed forms of the labour force in the category or area.

Participation rate: - The percentage the labour force forms of the population in the category or area.

Census Division: - The general term "census divisions" includes a variety of titles such as the administrative units of the provinces of Prince Edward Island, Nova Scotia, New Brunswick, Quebec and Ontario called "counties"; British Columbia's regional districts; Ontario's regional municipalities, territorial districts, district municipality and metropolitan municipality; and finally the use of the title "census division" itself, created by Statistics Canada in collaboration with the provincial governments of Newfoundland, Manitoba, Saskatchewan and Alberta, since these provinces do not possess administrative units comparable to the counties of other provinces. The few regional and district municipalities in Ontario were created by the Ontario Government beginning in 1969, while legislation forming the 29 new regional districts in British Columbia replacing the former 10 census divisions was completed in 1968.

Census Metropolitan Area (CMA): - The main labour market of a continuous built-up area having 100,000 population or more.

(1) See the "Dictionary of 1971 Census Terms" which will give an indication, when applicable, as to how the 1971 Census terms compare with similar terms in the 1961 Census.

DÉFINITIONS (1)

Activité: - Activité sur le marché du travail des personnes de 15 ans et plus au cours de la semaine précédant le recensement, c.-à-d. travaillant contre rémunération ou en vue d'un bénéfice ou sans rémunération dans une entreprise familiale, cherchant du travail, en congédiement temporaire, ou ayant un emploi mais n'étant pas au travail.

Population active: - Au recensement de 1971, la population active comprend les non-pensionnaires d'institution de 15 ans et plus qui, au cours de la semaine précédant le recensement, ont travaillé contre rémunération ou en vue d'un bénéfice, sans rémunération dans une entreprise familiale, ont cherché du travail, étaient en congédiement temporaire ou avaient un emploi dont ils étaient temporairement absents à cause d'une maladie, de vacances, d'une grève, etc. Les personnes ne faisant que des travaux ménagers chez elles ou du travail bénévole sont exclues de la population active. Sont également exclues les travailleuses agricoles qui ont indiqué avoir travaillé moins de 20 heures sans rémunération dans une ferme ou entreprise familiale.

Population active occupée: - Tous les non-pensionnaires d'institution de 15 ans et plus qui, au cours de la semaine précédant le recensement, ont travaillé contre rémunération ou en vue d'un bénéfice, ou sans rémunération dans une entreprise familiale, ou avaient un emploi dont ils étaient temporairement absents à cause d'une maladie, de vacances, d'une grève, etc. (pourvu qu'ils n'aient pas cherché de travail). On doit noter qu'il existe des indications que la population active occupée du Québec, dû à des difficultés d'interprétation des questions, aurait été quelque peu sous-estimée.

Population active en chômage: - Tous les non-pensionnaires d'institution de 15 ans et plus qui, au cours de la semaine précédant le recensement, ne travaillaient pas mais cherchaient du travail, étaient en congédiement temporaire, ou auraient cherché du travail s'ils n'avaient pas été temporairement malades ou s'ils n'avaient pas été convaincus qu'il n'y avait pas de travail convenable disponible dans la localité.

Chômeurs sans expérience: - Actifs en chômage qui ont travaillé pour la dernière fois avant le 1^{er} janvier 1970 ou qui n'ont jamais travaillé.

Inactifs: - Toutes les personnes de 15 ans et plus qui ne font pas partie de la population active. La plupart des personnes de cette catégorie sont des étudiants, des maîtresses de maison, des retraités, des travailleurs saisonniers recensés en saison morte et ne cherchant pas de travail, et les personnes qui ne peuvent travailler en raison d'une maladie ou d'une infirmité physique ou mentale de longue durée, y compris les pensionnaires d'institution.

Taux de chômage: - Pourcentage des chômeurs par rapport à la population active de la catégorie ou du secteur donné.

Taux d'activité: - Pourcentage de la population active par rapport à la population totale de la catégorie ou du secteur donné.

Division de recensement: - En général, le terme "divisions de recensement" comprend divers titres tels que les unités administratives des provinces de l'Île-du-Prince-Édouard, de la Nouvelle-Écosse, du Nouveau-Brunswick, du Québec et de l'Ontario, désignées "comtés"; les districts régionaux de la Colombie-Britannique; les municipalités régionales, les districts territoriaux, les municipalités de district et les municipalités métropolitaines d'Ontario; et enfin l'usage du terme "division de recensement" créé par Statistique Canada en consultation avec les gouvernements provinciaux de Terre-Neuve, du Manitoba, de Saskatchewan et d'Alberta vu que ces provinces ne possèdent pas d'unités administratives comparables aux comtés des autres provinces. Les quelques municipalités régionales et de district d'Ontario furent créées par le gouvernement d'Ontario à partir de 1969, tandis que la loi formant les 29 nouveaux districts régionaux dans la Colombie-Britannique en remplacement des anciennes divisions de recensement, était complétée en 1968.

Région métropolitaine de recensement (R.M.R.): - Le principal marché du travail d'une zone bâtie en continu comptant 100,000 habitants et plus.

(1) Voir le "Dictionnaire des termes du recensement de 1971" qui indique, lorsqu'il y a lieu, comment les termes du recensement de 1971 se comparent avec les termes semblables du recensement de 1961.
